WAR THREATENED.

For, we tell you in the utmost frankness and with deep feeling, that the greatest possible danger overhangs the Government, and we believe that another war is certainly in the near future, unless the people arouse themselves to avert it. When, in the early history of the country, we had a Revolution, and at the end of it, had to form new Governments, the matter was found to be deficient enough, even with the people united and desirous of forming good governments. But how is it now: We have had a war and a new Government is to be formed. If we were united and anxious to form the best Government we could, it would be difficult enough to do it. But, instead of being united, we are bitterly divided, and a very large portion of the people, many of whom have been, and some of whom now are, in high positions of trust, declare that the State government as at present organized, is illegal and void, and must be overthrown by force of arms immediately after the election this Fall. But then we call your attention to the fact that they rejected the Constitution three years age, which had no colored vote in it. They rejected the Howard Amendment which had no colored vote in it, and so they would reject this if it had no colored vote in it. The secret is, they hate the government, and many of them love
